WORK EXPERIENCE

Mathison Projects, Inc.   **Jul. 2021– Feb 2024**

Frontend Developer   *Remote*

- Built web applications for contract clients, developing and maintaining scalable, responsive front-end code for a diverse range of industries including ecommerce, education, government agencies, and more.
- Specialized in React and Vue, effectively integrating these libraries/frameworks in order to create dynamic, data-driven and user-friendly interfaces.
- Became proficient in various UI libraries and tools such as MUI, Tailwind, and Ant Design in order to have full control over customizing the application's UI while maintaining brand and design consistency.
- Saw several projects start to finish, from conceptualization to deployment, while also joining existing codebases and contributing to improvements, refactors, and migrations.
- Played a key role in ensuring code quality and application stability by mastering unit and integration testing, employing various tools and methods.
- Provided mentorship and assistance to more junior developers, aiding in their technical growth by helping to troubleshoot issues and guiding them toward effective solutions that follow best practices.

Ravo, LLC   **Aug. 2020 – Jul. 2021**

React Developer   *Remote*

- Joined startup as a self-taught JavaScript developer with minimal React experience and rapidly upskilled in React under the mentorship of a seasoned developer with over 15 years in the field.
- Worked in a small, agile team of 3 individuals, contributing significantly to the complete overhaul of the user interface, aligning it with new design standards and branding.
- Participated in brainstorming sessions, contributing innovative ideas that were successfully implemented into the platform, enhancing user experience and functionality.
- Engaged in weekly meeting calls, playing a crucial role in decision-making and problem-solving processes, directly impacting the platform's development strategy.
- Honed debugging skills, efficiently identifying and resolving issues.
- Rapidly transitioned from beginner to proficient React developer, demonstrating a strong capability for self-directed learning and adaptation.

EDUCATION

The Complete Web Developer: Zero to Mastery   **2020-2022**

Udemy Certificate

- Self-directed course covering the fundamentals of programming and web development, specifically with JavaScript. Landed position at Ravo before finishing the course, completed later in 2022.
